SKILLS

Languages: C++, Python, C, Java, HTML and CSS, JS
Tools/Platforms: MySQL, Power BI, MS Excel – Advanced, AutoCAD
Soft Skills: Problem-Solving, Adaptability, Site management, Marketing, Leadership

PROJECTS

Coaching Institute Management Website | Live link — Apr' 25

- Develop a fully responsive and user-friendly coaching institute website that centralizes course details, faculty information, student inquiries, and announcements using modern full-stack web technologies.
- HTML, CSS, JavaScript for frontend UI; GitHub for version control and responsive design principles for cross-device compatibility.
- Delivered a fast, mobile-optimized website that improved user engagement by enhancing navigation flow and reduced manual inquiry handling through automated backend processing.

  Tech Stack – HTML, CSS, JS

Vehicles Analysis Dashboard | Github link — Dec' 24

- Build an interactive Excel-based dashboard that automates data visualization, improves business reporting efficiency, and enables quick decision-making through dynamic charts and automated analysis formulas.
- Advanced Excel Functions (VLOOKUP, IF, Pivot Tables), Data Cleaning, Dashboard Design, Conditional Formatting, Chart Visualization, and GitHub for version control and project hosting.
- Created a highly functional dashboard that reduced manual reporting time by 50%, improved data accuracy, and enabled faster insights through automated charts and real-time visual analytics.

  Tech Stack – MS Excel

TRAINING

Centre for Professional Enhancement | DSA with CPP — Jun' 25 – Jul' 25

- Build a strong foundation in Data Structures and Algorithms by learning core concepts such as arrays, linked lists, stacks, queues, sorting, and searching to enhance problem-solving and coding efficiency.
- Understanding of DSA fundamentals, algorithm design approach, time & space complexity analysis, implementation of data structures, and practice in solving structured coding problems.
- Strengthened logic-building and coding accuracy, enabling faster problem-solving and improving overall programming efficiency for technical interviews and competitive coding.

CERTIFICATES

Computer Communications Specialization | *Coursera* — *Jan' 25*
The Bits and Bytes of Computer Networking | Google — Jan' 25
Cyber Jaagrookta | CIET-NCERT — Oct' 24
Python Data Science Fundamentals | Udemy — Feb' 24

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology — Aug' 23 – Present
Computer Science and Engineering; CGPA: 6.78

Kendriya Vidyalaya No. 1 — Jalandhar, Punjab
Intermediate — Mar' 22 – May' 23
PCM; Percentage: 68%

Kendriya Vidyalaya No. 1 — Jalandhar, Punjab
Matriculation — Mar' 20 – May' 21
Percentage: 82%
